LETTER FROM ORGANIZERS

Dear Exhibitors and Advertisers,

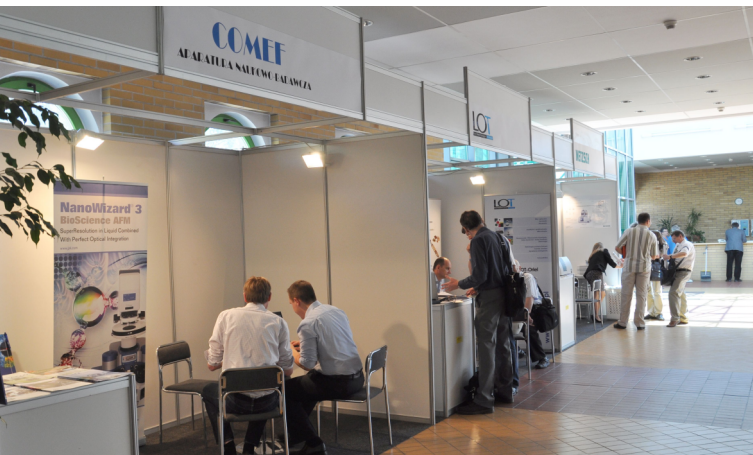

The Institute of Molecular Physics of the Polish Academy of Sciences and the Faculty of Physics and Astronomy of Adam Mickiewicz University organize the 18th European Conference on Physics of Magnetism (PM'26). The scientific event was first held in 1975. The forum in 2026 will take place at the University Campus in Poznań. The conference is an international meeting for the presentation and discussion of novel and groundbreaking scientific ideas in the field of broadly understood magnetic phenomena and modern quantum materials. We are expecting more than 300 scientists from all over the world and from major scientific laboratory centers.

The forthcoming event will be especially dedicated to celebrating the 50th anniversary of the conference series. We are pleased to announce that a five-day exhibition of scientific instruments, laboratory equipment, books, software, and institutions related to research activities will also be organized at the same venue in conjunction with the scientific program. The proximity of the two events creates a perfect opportunity for direct contact between manufacturers and vendors with scientists, engineers, and technology experts.

We are looking forward to seeing you in Poznań!

Piotr Kuświk and Ireneusz Weymann

Chairman of the PM'26 conference

ABOUT THE CONFERENCE

The European Conference on Physics of Magnetism 2026 is an ideal gathering of leading researchers working in the field of magnetism, with an emphasis on solid-state phenomena and quantum physics. Many distinguished speakers from around the world, including Nobel Laureates, have participated in previous editions of the conference. Our meeting allows direct contact between exhibitors and scientists from leading research groups. In 2026, we are looking forward to a fascinating lecture by Nobel Laureate Prof. Klaus von Klitzing. On this occasion, the main topics were expanded by the inclusion of the special categories of the scopes dedicated to new quantum states in condensed matter physics, the highest precision measurement techniques and unconventional computational methods. A wide scope of the conference is intended for engineers and experts looking for new solutions in the field of laboratory equipment and directly in the industry.

Get ahead of your competitors and secure your place in the exhibition hall.

THE SCOPE OF THE CONFERENCE

Magnetic Structure and Dynamics | Spintronics, Orbitronics and Valleytronics | Strongly Correlated Electron Systems | Nanostructures | Surfaces and Interfaces Physics | Magnetism of Alloys and Intermetallics | Curvilinear Magnetism | Classical and Quantum Spin Systems | Topological Materials | Unconventional Computing | Van der Waals Materials | Molecular Magnetism | Magnetic Materials for Energy | Magnetism in Medicine | Quantum Technologies | Instruments and Measurement Techniques | Device and Applied Magnetism | Hybrid Systems and Bound States | New Concepts and Trends in Magnetism.

OUR OFFER TO EXHIBITORS AND ADVERTISERS

The Physics of Magnetism forum provides excellent opportunities to effectively present your company's products, services, and laboratory equipment. The exhibition of experts will take place from June 22 to June 26, 2026, at the Morasko Campus of Adam Mickiewicz University in Poznań. We offer professional exhibition stands to our guests.

The fee of 5500 PLN (approx. 1317 EUR) includes the following items:

- Participation of one company representative in all conference activities: lectures, lunch tickets, welcome party, banquet, concert (each additional participant pays only 1500 PLN).
- Exhibition space and booth with furniture (approximately 8-10 square meters, equipped with the company's logo, a table, 3 chairs, an information counter, a power supply socket, Wi-Fi access point, and lighting).
- One-page advertisement in the conference booklet, the possibility of distributing the exhibitor's promotional brochures in the conference briefcases (max. 400), and advertising on the displays during the conference (max. 5-minute video without sound). These options are also available for advertisers and do not require participation in the conference. The cost of advertising (without participation) is 900 PLN (approx. 216 EUR).
- Your company logo on the official website and central part of the exhibition stand.

Don't lose any more time, complete your registration form now:

www.ifmpan.poznan.pl/pm26/exhibition-registration.html

You can achieve all your marketing objectives in one place but the number of stands is limited and stands will be allocated on a first come basis. Detailed information about Terms & Conditions, the Registration Form, and contact information can be found on the official Conference website.
