

SOFT MAGNETIC MATERIALS CONFERENCE POZNAŃ | POLAND 2019

100
100th anniversary of the
Poznań University of Technology

September 4-7, 2019 Poznań, Poland

The series of Soft Magnetic Materials Conferences are the largest international events devoted to soft magnetic materials. Celebrated every two years, mostly in Europe, in the month of September, the conferences consist of invited, oral and poster presentations, which span over a period of minimum three days. This Conference in Poznań (Poland) as usually brings together researchers from industry and academia, working on all aspects of soft magnetic materials, with topics including, among others, materials properties, applications, device design, fundamental studies in magnetism and simulations.
